### INDUSTRY EXPERIENCE

#### JPMC, Remote FTE

Lead Software Engineer, Oct.2020 - Present

- Set up a team by training members to use Git, Bitbucket, Django, Vue, Celery and CI/CD.
- Designed and architected an internal application serving 100,000 internal users. Internal application focused on automating manual processes for tableau users and support ticket requests. *Django/Python, DRF, Vue/Vuex, Celery, CF*
- Python Instructor: Creating a learning plan to teach python to JPMC employees with a focus on internal tooling.
- Scripted Data Center Migration script to automate Tableau multi-node cluster servers with NAS backup. *Python, Jenkins*

#### JPMC, Remote Judge Group Contractor

Lead Software Engineer, May.2020 - Oct. 2020

- Develop APIs for the Tableau Data Engineer team to automate their manual processes. *Django/Python, DRF, Vue/Vuex*
- Create Bitbucket and Git flow for developers to use on the team and set good PR practices. *Atlassian/Jenkins/Git*
- Implemented Jira Epic and Story ticket setup with more modern-day practices. *Atlassian*

#### PNC, Remote Everest Consultant

Infrastructure Engineer, Oct. 2019 - May 2020

- Developed APIs for an inhouse server provisioning software. *Django/Python, DRF, Celery*
- Created frontend pages for users to manage servers and resources within the application. *React/Redux*
- Implemented stronger commit messages and branching habits across the team to better integrate Atlassian products.
- Created and maintained Authentication/Permission package for company pip artifactory. *Django/Python, DRF*

#### Rue 21, Remote Everest Consultant

Lead Developer, Mar. 2019 - Feb. 2020

- Developed a logistics application for purchase orders for Rue 21 vendors. *Django/Python, DRF, React/Redux, Docker*
- Created tickets and assigned tasks to offshore and onshore teams in a two-week sprint Agile environment.
- Maintained code quality with extensive code review and mentoring to junior developers on the team.

#### Everest Technology Inc., Worthington, OH

Consultant Oct. 2018 - May 2020

- Worked on in-house Timesheet App, adding features and editing reports. *PHP, MySQL, Javascript*
- Attend recruiting events and speak at tech panels to engage with potential new candidates for the company.
- Interviewed potential resources and created work samples to gauge candidates' abilities.
